ABOUT

I'm a developer who's enthusiastic about crafting elegant product experiences with a strong eye for aesthetic design. My passion includes researching and learning new technologies and tools, as well as finding the joy in solving problems. I bring project management skills, passion for innovation, and a mindset of efficiency and creativity.

EXPERIENCE

FREELANCE WEB DEVELOPER

May 2017 - present

- Build and deploy full stack web application using HTML/CSS, Angular, React, NodeJS, ExpressJS, MongoDB.
- Build reusable modules and UI components and design pattern library for future reference.
- Create Rest API and build endpoints with Express. Integrate with third party API.
- Collaborate with other developers using Git/Github in agile development environment.

PROJECT MANAGER

Webii ; Austin, TX | 2015 - 2016

- Organize planning, development, and deployment of web sites.
- Convert client's business needs into functional specifications.
- Serve as a liaison between stakeholder and development team.
- Coordinate and track progress of design and development teams to implement online designs.
- Proactively seek ways to improve site and processes. Look ahead to plan for problem areas as well as identify opportunities.
- QA of all web properties and ensure overall quality of client websites.

PROJECT COODINATOR

One Million Gateways, Inc. ; San Francisco, CA | 2014 - 2015

- Manage multiple web projects.
